Type 2 Wall Mount J Hook Cable Holder with Socket

Keep. Protect. Charge.

Product Overview

The Type 2 Wall Mount Cable Holder with Socket is designed to safely store and protect Type 2 charging connectors while keeping charging cables organized. Suitable for residential, commercial and public EV charging stations.

Key Features

- Engineered for Durability
- Premium Quality Construction
- Space-Saving Design
- Clean Cable Organization
- Robust Wall Mount Solution
- Made for Professional EV Charging
- Built for Everyday Reliability
- Safe & Secure Storage
- Clean Cable Organization
- Enhanced User Convenience
- Trusted Performance

Technical Specifications

Product Code	TES-CH-T2-001
Holder Material	Mild Steel
Socket Material	ABS & PVC
Finish	Matt Powder Coated
Operating Temperature	-30°C to +105°C
Installation	Wall Mounted
Application	Indoor & Outdoor
Mechanical Gun Lock	Yes
Standard	IEC 62196-2 Type 2 Connectors

Package Contents

1 × Cable Holder
1 × Type 2 Dummy Socket
Mounting Hardware

Dimensions Product

Net Width : 85 mm Product
Net Height : 225 mm Product
Net Depth / Length : 55 mm
Product Net Weight : 0.38 kg

Ordering

Package Level 1 Units: carton 1 piece
Package Level 1 Gross Weight: 0.44 kg

INSTALLATION NOTES

- All dimensions are in millimetres (mm).
- Recommended screw size: **M5** (Ø6.5 mm mounting holes).
- Mounting hole dimensions are **centre-to-centre (C/C)**.
- Install on a structurally sound wall using suitable anchors.
- Recommended mounting height: **900–1100 mm** from finished floor level to socket centre.
- Avoid sharp cable bends during installation.
- Ensure all fasteners are securely tightened before use.

1 MARK HOLE

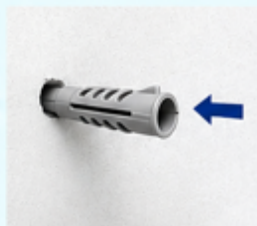

Hold the bracket on the wall at desired height and mark the mounting hole positions.

2 DRILL HOLE (STEP DRILL)

Use a step drill to drill the marked positions to Ø6.5 mm.

3 INSERT PLUG

Insert the wall plug (anchor) into each drilled hole.

4 INSERT SCREW (M5)

Align the bracket and insert M5 screw through the mounting hole into the plug.

5 TIGHTEN

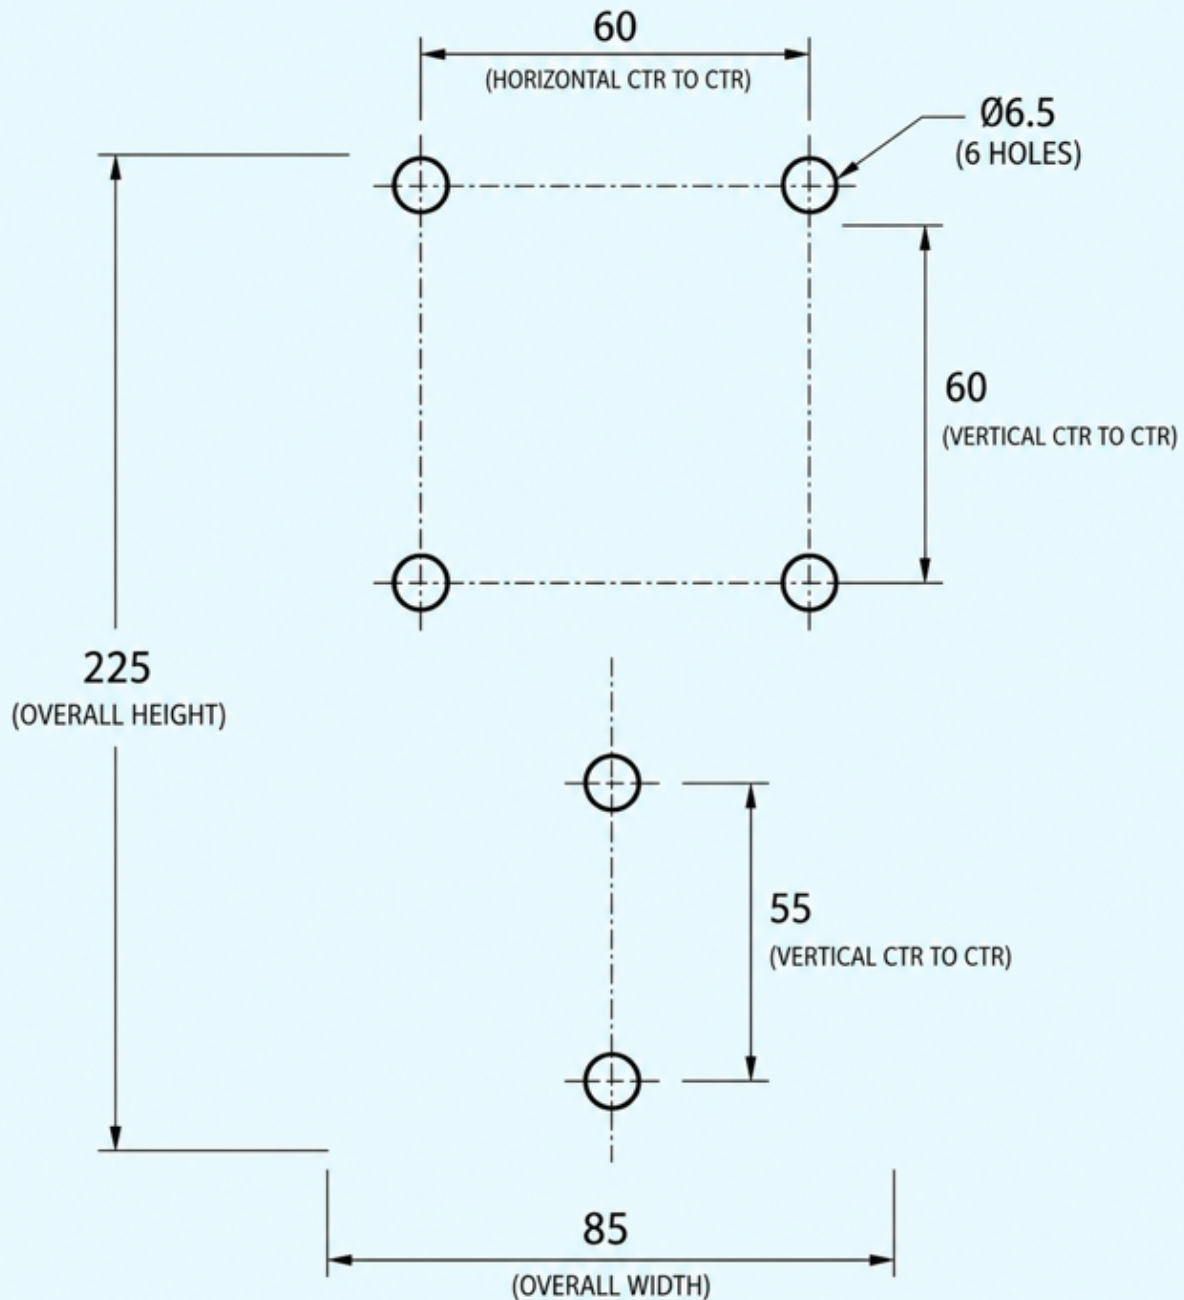

Tighten all screws securely to ensure a strong and safe installation.

Note: Use appropriate anchors/plugs based on wall type (concrete/brick/drywall, etc.).
